## Phased Reopening Quick Chart: New Mexico

### DRG Phase I

If your New Mexico county is in Red:

**Worship:** It is unsafe to hold in-person worship, and congregations are limited to digital services.

Non-contact and Drive-Up/Drive-Thru delivery of the sacrament are permitted.

In person teams for recording/streaming services should not exceed 5 people. Masking and social distancing requirements must be maintained at all times.

**Business Operations:** Office staff and volunteers are limited to only those necessary for essential business operations.

Contact between individuals must be kept to a minimum. Masks and social distancing requirements must be maintained in all common areas.

### DRG Phase II: Extra Caution

If your New Mexico county is in Yellow:

**Worship:** The Bishop's Office strongly recommends that all congregations in counties in yellow continue exclusively streaming services, and continuing with non-contact or drive-up/drive-thru delivery.

Our "strong recommendation" means that all Rectors and Vicars should contact their Vestries or Bishop's Committees immediately and have a conversation as to whether in-person worship is safe or appropriate at this time- taking into consideration the risk profile of your congregants, your ability to hold outdoor services, your ability to fully abide by your phase II workbook, and the comfort level of officiating clergy in those services.

**Business Operations:** Office staff and volunteers may be present in accordance with the congregation's most recently approved Phase II reopening workbook.

Contact between individuals should be kept to a minimum. Masks and social distancing requirements must be maintained in all common areas.

### DRG Phase II

If your New Mexico county is in Green:

**Worship:** Congregations may reopen according to their most recently approved Phase II workbook at no more than 50% of their capacity as indicated by the Fire-Marshall.

**Business Operations:** Office staff and volunteers may be present in accordance with the congregation's most recently approved Phase II reopening workbook.

For county by county information we are following the State of New Mexico's coding as found at : <https://cv.nmhealth.org/public-health-orders-and-executive-orders/red-to-green/>
